

Accidental Architecture with Søren Nielsen

Friday 3rd November 2023

10.30 - 12.00 a.m.

Søren Nielsen is co-owner of Vandkunsten Architects in Copenhagen. He has been working with sustainability concepts for three decades in particular repurposing of building components, refurbishments and adaptive reuse of building. Transformation is of highest relevance as the primary means to preserve material resources and at the same time where the most interesting aesthetic potential is found.
